		Add Delete	

PLEASE NOTE: For added Facilities, historic usage and/or projections will be reviewed prior to acceptance. Pulse Power will make every effort to add the requested Facilities at your original Commercial Energy Services Agreement (“CESA”) Price. If, based on market conditions, Pulse Power is unable to add the Facilities at the Price, you will be contacted via the email above with the adjusted Price for your approval. For deleted facilities, early termination fees may apply – please see your original CESA for details. TDSP fees may apply for new Facilities or expedited move-ins earlier than three business days.

By signing below, Customer and Pulse Power agree to add/delete the Facilities listed above to/from the Commercial Energy Services Agreement (“CESA”), including any Exhibits or Amendments previously entered into by and between the Parties indicated below.
